### 7. Nimerology Gül n' Eloïse the Dragon

Founded by Nour al Nimer, Nimerology's tableware draws inspiration from far-flung destinations for colorful collections like "I Left My Heart in Mexico" or "Isabelle's Garden Party." New this summer is an array that offers a modern interpretation of Chinese dragons and Ottoman roses (güls in Turkish), combining a contemporary twist on the two traditional emblems into a spirit pattern sure to brighten any tablescape.
